

Dear Secretary Burgum,

My name is Abby and I am 9 years old. Grizzly bears are my favorite animal because they are shy and love to eat, just like me.

I like to watch the wild animals in my backyard. I can see blue jays and sometime turtles or foxes. One day I want to go to Yellowstone National Park and try to see a grizzly bear.

I am worried if we don't take care of them that grizzly bears won't be around for me to see.

Please protect grizzly bears under the Endangered Species Act and don't let them be hunted until they are gone.

Thank you!

Sincerely,

Abby from Grand Rapids, Michigan
